3. Sole responsibility

This declaration of conformity is issued under the sole responsibility of Stedman GmbH.

4. Object of the declaration

The object of this declaration is the family of corrugated cartons identified in Section 1 and used for the NLA products explicitly listed above when these products are placed on or made available on the European Union market by Stedman GmbH. The carton specifications, dimensions, weights and style allocations are controlled through the applicable NLA technical specifications, packaging information supplied by NLA and Stedman's central PPWR technical documentation.

5. Statement of conformity

The packaging identified above is controlled for conformity with the applicable requirements of Regulation (EU) 2025/40 on packaging and packaging waste, based on the packaging specifications, supplier information, technical documentation and supporting evidence maintained in the Stedman technical documentation file.

- Article 5 - Substances in packaging: applicable supplier substance-compliance information is maintained in the technical file.
- Article 6 - Recyclable packaging: the cartons are corrugated paper-fibre packaging intended for the paper/cardboard recycling stream; supporting recyclability information is maintained with the packaging documentation.
- Article 10 - Packaging minimisation: carton dimensions are defined by product and packing requirements to limit unnecessary packaging material and empty space.
- Article 12 - Labelling: existing material / recycling identification is controlled through the applicable packaging artwork and technical documentation; future harmonised EU labelling requirements will be implemented according to their applicable dates.

The conformity assessment is carried out using the internal production control procedure (Module A, Annex VII) on the basis of the packaging specifications and supporting documentation maintained by Stedman GmbH.

6. References to relevant standards, common specifications or technical specifications

Regulation (EU) 2025/40, Articles 5 to 12, Article 38, Article 39 and Annexes VII and VIII. Where harmonised standards or common specifications are not yet applicable, conformity is assessed against the applicable requirements of the Regulation and the packaging technical specifications and supplier documentation available for the packaging concerned.

7. Supporting technical documentation

- Latest NLA technical specifications / article sheets for styles 3600, 6010, 6210, 7200, 7211, 7610, 9007, 9087, 9307 and 9607.
- NLA carton dimensions and empty-carton weight information supplied by NLA.
- Warehouse case-type overview and packaging traceability information.
- Supplier material composition, board construction, recyclability and substance-compliance documentation, where applicable.
- Packaging artwork / markings and other supporting PPWR documentation maintained by Stedman GmbH.

8. Additional information

This declaration applies only to the NLA packaging specifications identified above. It remains valid provided that the material composition, board construction and relevant design characteristics remain unchanged. Packaging changes affecting conformity require review and, where necessary, an updated declaration.
